

When germs are spreading around,  
there's a few things we can do to **TAKE THEM DOWN!!**

1. Wash, wash  
**WASH YOUR  
HANDS**

2. Sneeze / cough  
Into a tissue

3. Avoid touching  
your **FACE**

**There's a new virus in town: Coronavirus.**

**But, there are steps you and your family can take to stay safe and healthy.**

**If you or a family member has a fever or is experiencing fever,  
runny nose, coughing, shortness of breath, headaches or sore throat...**

**CALL YOUR DOCTOR!**
